EQUISOLVAN® by DOSTOFARM® Natural feed supplement for healthier horses

For over 25 years, DOSTOFARM® has stood for natural innovations in animal health. Our exclusive DOSTO® oregano oil, which we cultivate under our own contract, marked the beginning of a success story that today encompasses a diverse range of high-quality products. All our solutions are based on select essential oils and valuable plant extracts – scientifically sound and reliably effective.

Natural expertise – For your horse, feeling good from the inside out.

With great passion and expertise, our product developers have created solutions that not only support the health of horses, but also noticeably and sustainably improve their well-being. Because every horse deserves care that works.

EQUISOLVAN® – The natural choice for horses

Natural, highly effective support for horses from DOSTOFARM® – that's the EQUISOLVAN® product line.

Developed by horse lovers for horse lovers.

EQUISOLVAN®

NATURAL. EFFECTIVE. FOR MY HORSE.

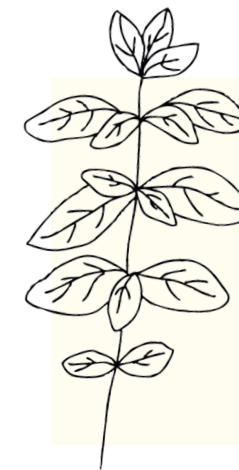

You know your horse best – preferable in its best condition.

However, horses also experience stressful situations that can affect their well-being. With EQUISOLVAN®, we've developed a product line precisely tailored to the needs of horses. This allows you to provide your horse with optimal support in every situation.

The pure power of nature

With a blend of high-quality essential oils and valuable plant extracts, our supplementary feeds offer natural support for digestion and the respiratory system, as well as for the general well-being of horses.

Our DOSTO® oregano oil is a natural essential oil from our own cultivation, distillation, and processing – and impresses with its consistently high quality. It comes from a specially selected oregano variety, guaranteeing a natural and safe essential oil with a consistent, reliably effective composition. The natural strength of DOSTO® oregano oil forms the basis of EQUISOLVAN®.

Why use essential oils for horses?

One drop of essential oil contains 50 to 200 times the amount of active ingredient compared to dried herbs and tea infusions.

EQUISOLVAN[®]

DIGEST

supports the
gastrointestinal function

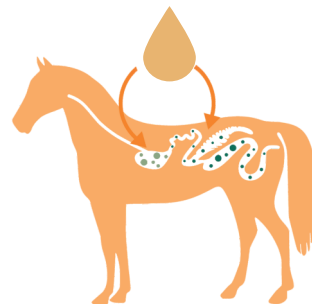

Natural support

A horse's digestive system is sensitive and susceptible to many influences. Therefore, our goal is for the horse to feel completely well. The essential oils and fatty acids in EQUISOLVAN[®] DIGEST have anti-inflammatory and antioxidant properties and promote digestion. In this way, they support the horse's gastrointestinal function in a natural way.

Selected ingredients

EQUISOLVAN[®] DIGEST is a combination of high-quality, natural oregano, peppermint, anise and blue chamomile oil, as well as hemp seed and flaxseed oil and other valuable components.

Feeding recommendation

Dosages of 2 ml, 2.5 ml or even 3 ml can be easily adjusted using the green wheel. Insert the dosing device into the toothless side of the horse's mouth or mix it with the feed:

Ponies und small horses:	6 ml/day
Horses up to 600 kg body weight:	2 x 5 ml/day
Horses more than 600 kg body weight:	2 x 6 ml/day

It is recommended to continue feeding EQUISOLVAN[®] DIGEST for at least two days after the stress situation has subsided.

Note: 48 hours waiting time (according to FN-ADMR)

Why use EQUISOLVAN[®] DIGEST?

- ✓ supports the gastrointestinal function
- ✓ soothes and may have an anti-inflammatory effect
- ✓ is easy to use thanks to dosing devise
- ✓ is extremely palatable

EQUISOLVAN[®]

VERMI^{PLUS}

supports the
gastrointestinal function
during deworming

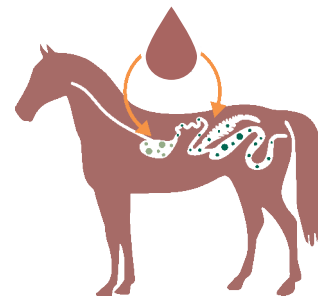

Natural support

The essential oils contained in EQUISOLVAN[®] VERMI^{PLUS} possess antioxidant and anti-inflammatory properties, which can naturally strengthen the gastrointestinal tract. Bitter and pungent substances create an intestinal environment that is unpleasant for worms. This combination of valuable ingredients can improve the horse's well-being.

Selected ingredients

EQUISOLVAN[®] VERMI^{PLUS} is a combination of high-quality, natural oregano oil, wormwood extract, clove and lemongrass oil, which can stabilize gastrointestinal function before or during deworming treatment.

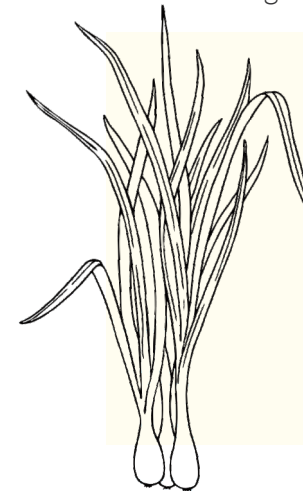

Feeding recommendation

Dosages of 2 ml, 2.5 ml or even 3 ml can be easily adjusted using the green wheel. Insert the dosing device into the toothless side of the horse's mouth or mix it with the feed:

Ponies and small horses:	6 ml/day
Horses up to 600 kg body weight:	2 x 5 ml/day
Horses more than 600 kg body weight:	2 x 6 ml/day

It is recommended to feed EQUISOLVAN[®] VERMI^{PLUS} several times a year for at least 10 days as a preventive measure to maintain a healthy gastrointestinal function. EQUISOLVAN[®] VERMI^{PLUS} can be fed in combination with a worming treatment to support the gastrointestinal tract.

Note: 48 hours waiting time (according to FN-ADMR)

Why use EQUISOLVAN[®] VERMI^{PLUS}?

- ✓ supports during deworming
- ✓ creates an intestinal environment unfavorable for worms
- ✓ is easy to use thanks to dosing device
- ✓ is extremely palatable

EQUISOLVAN[®]

RESPIRE^{PLUS}

supports the
respiratory function

Natural support

Respiratory problems can not only reduce a horse's performance but also impair its overall well-being. The essential oils and plant extracts contained in EQUISOLVAN[®] RESPIRE^{PLUS} support respiratory health by soothing the airways and loosening mucus. This eases breathing, allowing the horse to breathe more freely again.

Selected ingredients

EQUISOLVAN[®] RESPIRE^{PLUS} is a combination of high-quality, natural thyme oil, anise oil, licorice root extract, marshmallow tincture and other valuable components.

Feeding recommendation

Dosages of 2 ml, 2.5 ml or even 3 ml can be easily adjusted using the green wheel. Insert the dosing device into the toothless side of the horse's mouth or mix it with the feed:

Ponies and small horses:	6 ml/day
Horses up to 600 kg body weight:	2 x 5 ml/day
Horses more than 600 kg body weight:	2 x 6 ml/day

It is recommended to continue feeding EQUISOLVAN[®] RESPIRE^{PLUS} for at least two days after the stress situation has subsided.

Note: 48 hours waiting time (according to FN-ADMR)

Why use EQUISOLVAN[®] RESPIRE^{PLUS}?

- ✓ supports the respiratory function
 - ✓ soothes and may have an anti-inflammatory effect
 - ✓ is easy to use thanks to dosing device
 - ✓ is extremely palatable
- 

EQUISOLVAN[®]

HAY SPRAY

the alternative to
washing and steaming
with valuable oregano oil

Natural support

Lower-quality hay can lead to respiratory problems in horses, thus impairing their well-being. EQUISOLVAN[®] HAY SPRAY binds dust, reduces germs and mold, supports normal respiratory function, and increases the horses' vitality.

Selected ingredients

EQUISOLVAN[®] HAY SPRAY is a high-quality concentrate based on natural essential oregano oil and a blend of valuable aromatic substances.

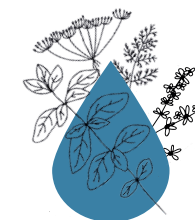

Feeding recommendation

Shake the product briefly before use. To prepare the recommended 3 % spray solution, mix 30 ml of EQUISOLVAN[®] HAY SPRAY with 1 liter of water.

Distribute the prepared spray solution evenly over the entire hay ration using a pressure sprayer. The spray solution is sufficient for approximately 10–12 kg of hay, which corresponds to a daily ration for a 600 kg horse.

The prepared spray solution should be used within three days.

Why use EQUISOLVAN[®] HAY SPRAY?

- ✓ binds dust in hay
- ✓ reduces strain on the respiratory system
- ✓ for increased vitality
- ✓ is extremely palatable
